Register as an individual or a learning hub

One main component of BCCI 3 involves a direct focus on working with local communities on a specific project. These core groups are referred to as **learning hubs** and are comprised of local community leads as well as BCCI members.

Learning hubs will have an opportunity to present and conduct virtual workshops at BCCI 3 for a more collaborative effort in our ongoing Community of Practice.

For more information visit the [Institute page](#) on our website. We encourage you to pass the event details along to your colleagues and those in your student and young professional networks.
